

ADIL EHTESHAM

Full Stack Developer (MERN)

+91 78903 32927 | aadilehtesham63@gmail.com | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

MERN Stack Developer skilled in building full-stack web applications with React.js, Node.js, Express.js, and MongoDB. Hands-on experience developing REST APIs, JWT authentication, RBAC, payment gateway integrations, and cloud deployments. Built and deployed 25+ MERN stack projects with clean, scalable, maintainable code.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+)

Frontend: React.js, Redux Toolkit, Context API

Backend: Node.js, Express.js, RESTful API Design, JWT Authentication, RBAC

Styling: Tailwind CSS, Bootstrap

Database: MongoDB, Mongoose ODM, MongoDB Atlas

Integrations: Razorpay, Nodemailer, Brevo (SendinBlue), Multer

Tools & Platforms: VS Code, Postman, Git, GitHub, Vercel, Render

PROFESSIONAL EXPERIENCE

Infoseek Software Systems Pvt. Ltd.

Jul 2025 – Jan 2026

Full Stack Developer – MERN | Internship Certificate Awarded

- ▶ Built and shipped production MERN stack features for live users, following Agile sprint workflows and Git branching strategies.
- ▶ Developed RESTful APIs with Node.js and Express.js, optimizing MongoDB queries and Mongoose schemas to cut average API response time by [X]%.
- ▶ Resolved 30+ frontend and backend bugs, improving application stability and release velocity; implemented JWT-based authentication with protected routes and secure session management.
- ▶ Contributed to React Native feature development under senior developer guidance, extending app functionality to mobile.

KEY PROJECTS

Portfolio Maker — SaaS Platform

your-portfolio-iota.vercel.app

React.js, Node.js, Express.js, MongoDB, Razorpay, Nodemailer, Multer, JWT

- ▶ Built a full-stack SaaS portfolio generator letting users create, customize, and publish personal portfolios, with Razorpay-based subscription monetization and access control for premium features.
- ▶ Built secure JWT authentication with protected routes and email verification via Nodemailer/Brevo, and a Multer-based file upload system with validation for profile photos and project media.
- ▶ Designed end-to-end architecture across React.js frontend, Express.js REST APIs, and MongoDB Atlas, deployed independently with environment-based configuration.

Hospital Management System

hms-alpha-neon.vercel.app

React.js, Node.js, Express.js, MongoDB, JWT, Nodemailer, RBAC

- ▶ Built a role-based appointment system with 3 user roles (Admin, Doctor, Patient) and a multi-step, admin-approval-driven JWT + RBAC authentication flow securing access for all roles.
- ▶ Automated email notifications via Nodemailer for appointment confirmation, rejection, and status updates, reducing manual coordination overhead.
- ▶ Built the complete backend REST API suite covering registration, appointment CRUD, role management, and activity history.

Live Cricket Scoring

apna-score.vercel.app

React.js, Firebase Realtime Database, React Router

- ▶ Built a real-time ball-by-ball cricket scoring platform for gully, school, college, and weekend matches, with live batting/bowling stats synced instantly across devices via Firebase Realtime Database.
- ▶ Designed a responsive UI with React Router for smooth navigation across match creation, scoring, and stats screens.

EDUCATION

BCA — Manipal University Jaipur (Online)

2024 – 2027 (In Progress)

SGPA: 8.2 (3rd Semester)

CERTIFICATIONS & ACHIEVEMENTS

- ▶ Full Stack Developer Internship Certificate (Infoseek) — 25+ MERN projects built; active GitHub contributor.
